Teybac University & VietTESOL

Active and Inclusive Teaching and Learning for Minority Students

Key Objective: The main objective of this project is to improve English language teaching and learning for students who come from ethnic minority backgrounds.

Impact: the teachers and the students from ethnic groups of Vietnam. The province we are targeting at the moment is the Northwest Area or the Central Highland of Vietnam.

Project timeline: February 2023 to October 2023, including three rounds of needs analysis, planning, workshops and mentoring sessions.

Challenges: cultural differences, distance (including the time and possible additional costs incurred), possible technical issues with the online sessions.

Expertise for others: expertise in conducting online Zoom workshops and conferences, developing curricula, and building Facebook-based communities of practice (my current CoP includes a TESOL-oriented group (3100 members) and an IELTS-oriented group (234000 members)).
